Akia Eljon A. D'Angelo

IT Graduate · 3D Artist · Game Developer

Mabalacat, Pampanga, Philippines · Akiaeljon@gmail.com · 0993-137-0281 · LinkedIn · Portfolio

Summary

BSIT graduate (2025) who builds games and 3D worlds, from modeling and sculpting in 3Ds Max and Blender to gameplay in Unity and the web. Built a 3D campus tour as a capstone, shipped a 2.5D web game, and is now the 3D artist on a partnered Project for Roblox game.

Projects

PLVista — 3D virtual campus tour · College capstone · Unity, 3Ds Max

- Explorable 3D world of Pamantasan ng Lungsod ng Valenzuela with Maysan and Annex venues, Guest or Student login and an in-game tutorial.
- Features a Wayfinder destination guide, a PWD guide, avatar cosmetic rewards for exploring, in-game feedback, and touch or mouse-and-keyboard controls for kiosk, mobile and PC.

Limbo: Oblivion Survivor — 2.5D web game · Recently developed

- Survivor game with infinite progression: kill enemies, collect experience, and pick one of three augments each level, with a special augment every 10th level.
- Features three starting weapons (staff, sword, grimoire), reward chests with random weapon tiers, weapon merging and in-game feedback.

Stuck in Limbo: The Game — 3D hack-and-slash story game · Upcoming · Unity

+1 Arcane Evolution — Roblox game · Upcoming, partnered project

- Assigned as the 3D artist creating the game's characters.

Web Games

- Fleet Command: online battleship for 2-Any Amount of players, free-for-all or team battles.
- One Night Ultimate Werewolf: browser version of the hidden-role party game with a timed discussion phase and voting.
- Turbo Dash Racing: Online three-lap arcade racer with touch or keyboard controls and power-ups.

Additional Works in Blender

A modeled donut, a sculpted fish and a sculpted man (bust).
